

Record Management and Retention- Argentina

Document No.: CF-7-AR-5500
Revision: C
Revision Date: 2nd March 2018

1.0 PURPOSE/SCOPE:

1.1 Consistent with TI Automotive (“TI Group”) legal requirements and sound business practices, it is the policy of TI Group to retain and manage its business, financial, personnel and other Records (as defined below) in accordance with uniform guidelines, practices, and procedures. All TI Group employees or other personnel (“Personnel”) shall manage and protect TI Group Records and maintain TI Group Records in accordance with this Records Management and Retention Policy (“Policy”) and the Records Retention Chart found at 6.0 below (“Chart”).

1.2 It is the intent of this Policy to ensure that all Records necessary for business and compliance reasons will be retained for a period of time that will reasonably assure their availability when needed, but for no period of time longer than reasonably necessary. All Records required to be retained to document TI Group’s legal compliance, or otherwise required by law, rule or regulation to be retained, shall be retained for no less than the periods required by law. Compliance with this Policy will also assist TI Group in complying with court rules and orders during litigation, such as the Federal Rules of Civil Procedure and similar rules applicable in state court litigation. All Records required to be retained due to pending or threatened litigation or investigation shall be retained for so long as the litigation or investigation is active. (See Legal Hold section below.) The Chart establishes the Record categories covered by this Policy and the retention period for each category. To the extent that a Record is included in more than one category, the longer retention period shall apply.

1.3 This Policy (together with the Chart) shall apply to all of TI Group’s current or future offices and locations. All Records pertaining to TI Group which were created or are maintained by any TI Group Personnel while acting within the course and scope of his or her employment, whether such Records are located on TI Group property or elsewhere, are subject to the requirements of this Policy. The Record retention guidelines of this Policy and the Chart should apply to all applicable Records that may be created, maintained, stored, or otherwise in the possession of TI Group’s third party vendors.

2.0 RESPONSIBILITIES:

2.1 Process Owner is Global Director Corporate Quality Systems

2.2 The Legal Department within TI Group is responsible for providing guidance and approving the legal requirements for record retention.

2.3 LEGAL HOLD: The Chart shall be suspended when in the judgment of TI Group’s Legal Department or designated outside counsel, a Record or group of Records should be placed on legal hold. A legal hold requires preservation of appropriate Records under special circumstances, such as litigation, government investigations or consent decrees. TI Group’s Legal Department determines and identifies what TI Group Records are required to be placed under a legal hold. If TI Group Records are held by outside counsel, TI Group’s Legal Department will notify outside counsel.

2.4 TI Group’s Legal Department or designated outside counsel shall notify responsible TI Group Personnel if a legal hold is placed on Records for which such Personnel are responsible. Personnel so notified shall then locate and preserve all the applicable Records relevant to the legal hold. If there are questions as to whether a particular document is relevant to a legal hold, Personnel shall protect the document until he or she has checked with TI Group’s Legal Department or designated outside counsel. A legal hold remains effective until it is released in writing by a member of TI Group’s Legal Department. Once released, the affected Records shall be returned to their prior location and shall thereafter be subject to the handling procedures of this Policy and to the relevant provisions of the Chart.

2.5 Each Department/Area Manager is responsible for ensuring records are retained and stored in their department as described in this procedure.

3.0 REFERENCES/RELATED DOCUMENTS:

- 3.1 Corporate Quality System
- 3.2 Industry Standards
- 3.3 Customer Specific Requirements
- 3.4 Region specific Internal Audit (Corporate) Process
- 3.5 The Global Record Retention Policy (CP-7-ALL-55) applies to all TI Group companies with the exception of those TI Group companies which are located in each of the following countries as such companies shall utilize and comply with the specific Policy related to the country in which it is located:
 - 3.5.1 Australia
 - 3.5.2 Argentina
 - 3.5.3 Belgium
 - 3.5.4 Brazil
 - 3.5.5 Canada
 - 3.5.6 China
 - 3.5.7 Colombia
 - 3.5.8 Czech Republic
 - 3.5.9 France
 - 3.5.10 Germany
 - 3.5.11 Hong Kong
 - 3.5.12 Indonesia
 - 3.5.13 Italy
 - 3.5.14 Japan
 - 3.5.15 Poland
 - 3.5.16 Russia
 - 3.5.17 Slovakia
 - 3.5.18 Spain
 - 3.5.19 Turkey
 - 3.5.20 Venezuela

4.0 DEFINITIONS:

- 4.1 QMS – Quality Management System
- 4.2 QOS – Quality Operating System (Management Review)
- 4.3 Records “Record” means a recording created by TI Group Personnel while acting within the course and scope of his or her employment by any means upon any tangible thing including, but not limited to, computer records, electronic mail (“e-mail”), handwriting, typewriting, printing, photographing, photocopying, or facsimile, of any form of communication or representation, including letters, words, pictures, sounds or symbols or combinations thereof and any record thereby created, regardless of the manner in which the record has been stored.
- 4.4 STORAGE, ACCESSIBILITY AND RETRIEVAL
 - 4.4.1 **Storage.** TI Group uses multiple offsite storage of paper Records. Records in storage shall be preserved and stored in a secure location. A description of the Records included in a bundle or box shall be prepared prior to storage. All storage boxes shall be clearly labeled with the information necessary for identifying the records they contain. The storage boxes should not exhibit any other labels or markings that may cause confusion. Labels should be positioned so that they are not obscured by other storage boxes. For example, identification labels on storage boxes to be stored

on top of one another should not be placed on the lid or top of the storage box. The records shall be indexed in a manner and method to ensure the stored records can be located and retrieved promptly and efficiently. The storage system shall adequately preserve the Records from deterioration or unintentional destruction, and incorporate appropriate safeguards to ensure the conservation, maintenance and integrity of the Records during their retention periods.

4.4.2 Confidentiality and Security. Certain Records of TI Group are confidential, such as non-public financial information, business plans, employee medical and health information, personally identifiable customer information (name, address, telephone number, etc), third party financial information (credit applications, credit card information, etc.), attorney-client communications (all collectively referred to as "Confidential Information"). All employees shall keep Confidential Information strictly confidential and not disclose Confidential Information to any person outside TI Group without written approval of an authorized supervisor or manager. Employees shall disclose Confidential Information to other employees of TI Group only if the employee has a need to know the information. TI Group will employ commercially reasonable measures and safeguards to maintain the security of all Records, including appropriate administrative and technological safeguards with respect to all electronically stored information. Employees shall immediately report any actual, threatened or suspected breaches in confidentiality or security of TI Group's Records to an appropriate supervisor or manager.

4.4.3 Format. The format of the Records to be retained may vary, e.g., hard copy original, photocopy, facsimile, microfilm, microfiche, computer file, e-mail, computerized image. Electronic Records should be stored in a format that permits viewing and printing of a legible and complete facsimile of the original Record.

4.4.4 Electronic Records. All electronic Records should be maintained in a manner and utilize technology that provides the ability to print a paper copy of the electronic Record. Scanned images of paper Records should utilize technology that creates an exact or near exact facsimile or copy of the paper Record. The technology utilized for storage of electronic Records shall also permit the efficient migration to new formats as technology advances so that electronic Records will continue to be accessible and readable for as long as the Record is required to be retained. In general all records created by word processing, spreadsheet, EDI, or graphic software should be kept the same period of time as if it were a comparable paper record, whether saved to the hard drive or elsewhere. At the end of the retention period, the electronic copy of the record should be deleted or erased.

5.0 PROCEDURE:

5.1 All records are retained for the minimum period required by applicable laws and regulations in the jurisdiction in which the facility is located, or the period required by this Policy or the period required by the TI Group customer, whichever is longer.

5.2 All records related to the production of goods for a customer shall be retained for the life of the production, plus service, plus 1 year, unless otherwise specified by the customer requirements.

5.3 Documents which are not otherwise subject to retention may need to be retained due to unusual circumstances such as pending or threatened litigation, audit or government investigation. If, for any reason, it is felt that a document should be retained due to such a circumstance, TI Group Legal Department must be consulted. When litigation or investigations occur, TI Group Legal Department will notify the appropriate functions or facilities and direct that relevant categories of documents be labeled for retention until further notice.

Record Management and Retention- Argentina

Document No.: CF-7-AR-5500
Revision: C
Revision Date: 2nd March 2018

- 5.4 The privacy and security of records, particularly personnel and related records shall be appropriately assured.
- 5.5 Records maintained on microfilm and microfiche, magnetic tape, CD-ROM or other electronic data processing storage media are legally acceptable media for records retention and will be governed by the same guidelines as other records.
- 5.6 It is imperative that TI Group be able to document which documents have been retained and which documents have been discarded. Therefore, extra files including correspondence, memoranda, notes, computer discs, tapes, etc. which are maintained in individual offices, at home or any other off-site location are subject to this Policy.
- 5.7 It is the intent of this Policy that Records shall be destroyed upon the expiration of the applicable retention period provided in the Chart. Personnel shall carry out the destruction as soon as is reasonably practicable following the expiration of the retention period provided that the Records in question are not subject to a Legal Hold or there is no other good reason (such as the Record having historical value) to retain the Record for a longer period of time. Any Records so retained shall be destroyed when there no longer exists any valid reason for their continued retention. The mode of destruction shall safeguard the confidentiality of the Records and shall render them no longer recognizable as TI Group Records. Destruction methods should be used that ensure the Records, whether paper or electronic, are not capable of being reconstructed. Personnel carrying out the destruction shall maintain a record of the destruction.
